ZEPPELIN IS OFF FOR RIO JANEIRO

YAST THROG GATHERS TO
WITNESS DEPARTURE AT
PERNAMBUCO

1,250 MILE TRIP

Dr. Eckenker Expects To Arrive
At Destination Late
Today

BULLETIN
Rio Janeiro, May 24.—The
Graf Zeppelin passed over
the city of Santa Cruz, state of Bahia,
at 1:50 p. m. today (12:50 p. m.
E. S. T.). Santa Cruz is about 600
miles from Rio Janeiro.

(By Associated Press)
The Graf Zeppelin, following the
line of the Atlantic coast, made its
way down the rim of Brazil today
and Rio Janeiro, having left
Pernambuco at 9:35 p. m. (E. S. T.)
today.

Approximately 500 miles,
was reached by the Graf at 9:25 a.
m. today. The dirigible previously
had been sighted at Maragogi 35
miles before last midnight and at
Barras do Rio de Contos at 8:20
a. m. today.

The most recent communication
from Dr. Hugo Eckener was that
the Graf would fly southward as
far as Rio Grande do Sul, the in-
formation being given out by the
Correio da Manhã at Pernambuco.
The Graf is scheduled to reach Rio
after midnight but there was no
indication whether a landing would
be made.

Pernambuco, Brazil, May 24.—(AP)—
The Graf Zeppelin sailed southwest
today along one of the most beau-
tiful coasts in the world on a 1,250
mile trip to Rio Janeiro, capital of
Brazil.

On their left passengers had the
blue of the Atlantic, dotted with
vessels in the coastwise trade, and
on their right Brazil, now moun-
tainous and now rolling, but always
green and sparkling in the tropic
sun.

Departure from here was at 11:55
a. m. (E. S. T.). Several
minutes later the Graf's master,
Dr. Hugo Eckener, had calculated,
the intense heat making hazardous
replenishment of the lifting gas un-
til the air had cooled.

Almost as large a crowd as Per-
nambuco has ever seen witnessed the
departure, cheering frantically as the
ship rose gracefully in the air. It
circled the city with flashlight
beams on its sides, and at 12:20 a.
m. disappeared among the stars to
the southwest.

Dr. Eckener's plans were in doubt.
While he might be expected to make
the trip ordinarily in about 20 hours,
which would bring him to Rio Jan-
eiro at about 8 p. m. (E. S. T.)
today, there was reason to be-
lieve he might continue through
Saturday night toward Sag Paulo,
inland about 300 miles, where a large
number of Germans are engaged in
coffee-growing. In that event he
would return to Rio Janeiro on
Sunday.

Pony Throws Boy; Skull Fractured

John the six-year-old son of Mr.
and Mrs. John Ward, farmers re-
siding near the Avon report east of
this city, is in St. Mary's hospital
with a fractured skull. The child
was riding a pony at his father's
farm this morning. The animal
"bucked" and threw the child against
a board fence.

The accident occurred at about 10
o'clock this morning. The child,
unconscious, was rushed to the hos-
pital and an operation was performed
immediately in an effort to save
his life. Little hope is held for his
recovery.

FATHERS AND SONS PICNIC BIG SUCCESS

Despite threatening weather most
of Friday, the sun shone brightly
late in the afternoon and encour-
aged sponsors of the Fathers and
Sons picnic to proceed with plans
and as a result over one hundred
fathers and sons journeyed to Bee-
be Town, where a most enjoyable
time was had.

Early in the afternoon the Social
committee of the Y. M. C. A. an-
nounced that possibly the scheduled
picnic would have to be held in-
side, at the Y gym. However, as
the starting time approached, it
was decided to carry out original
plans and boys and dads loaded in-
to automobiles for the six mile
journey to the picnic grounds.

Little time was lost in laying out
indoor ball diamonds and three
games were soon in progress at the
same time. Of course the scores
were varied, with the dads mingles
particular attention to the score
end, but more eager to show the
youngsters how they used to slam
the ball about the lot in their
younger days. It is needless to say
that most of the time they "fanned"
and puffed and steamed.

Following the games the "kitchen"
department announced "time
for feed" and it was a case of fa-
thers lining up with sons and
matching to the "feed table" where
a most appetizing "handout" was
served and plenty of it, followed
with ice cream.

"On the whole the picnic was a
decided success and any dad who
missed it should not forget that in
two weeks the affair will be repeat-
ed and an effort should be made to
attend.

state tournament, according to
County Adviser Hazel Quick, is a
direct result of the success of the
tournament in Kankakee county.

PRISONER WAS POSING UNDER A FALSE NAME

WM. VALLI AT CITY JAIL IS
NOT VALLI BUT BILLY
HARRIS

STOLE VALLI'S CAR

Record Investigated By Chief
Stack And Officers Of
St. Louis, Mo.

William Valli of St. Louis, Mo., a
prisoner in the city jail upon con-
viction for carrying concealed weap-
ons, has turned out not to be Valli
at all, but Billy Harris, a name
which he at first used as an alias.

Chief of Police John Stack learned
yesterday afternoon that the real
William Valli is a reputable business
man of Richmond Heights, a suburb
of St. Louis, whose Ford coupe Har-
ris is alleged to have stolen, and
whom Harris was impersonating.

According to the present evidence,
Harris also stole the bill of sale for
the car, which shows that Valli in
August, 1929, traded another Ford
coupe for the one he now owns. The
real Valli is expected to come here
tomorrow from Missouri to claim his
car.

When arrested at the lunch stand
of "Rabbit" Lafontaine a week ago
by Police Sergeant Henry Edgren,
Harris had in his possession two
guns, one of which was a .32 caliber
automatic, 4 watches, several skele-
ton keys, a bunch of keys which
would fit almost any make of car,
a portable phonograph, and a banjo.
His arrest occurred when he tried to
give Lafontaine a watch in payment
for a meal, saying that he was
"broke."

When questioned by Chief Stack
and Detective Imming, Harris gave
his name as William Valli and said
that he was wanted in St. Louis for
shooting his father-in-law six times,
but failed to kill him. He claimed
he was convicted of the charge but
skipped out under bond of \$5,000,
furnished by his father, while the
case was being appealed. He also
claimed that he was a cousin of
Charlie Birger of the famous Birger
gang of Williamson county.

Upon his confession, Stack wired
to Acting Chief of Police Glasco of
St. Louis, who answered that he "did
not want" Valli, alias Harris. Con-
vinced that the circumstances war-
ranted holding the man, Chief Stack
put a charge of carrying concealed
weapons over him, and secured a
McGawley and Lett, writing, detective
sergeants of St. Louis, whom he
knew and worked with when state
highway chief, and asked their co-
operation. With their assistance, he
learned of the auto stealing charge.

Harris has confessed to stealing the
car. Stack said this morning,
but still sticks to the story of shoot-
ing his father-in-law, and that he is
a cousin of Birger. S. C. Gurechik,
special agent for the United States
Department of Justice, was here to-
day on the case, in regard to the
auto theft. He will return to the
district court at Danville for the
necessary papers and an officer will
be sent to take Harris back to St.
Louis.

Harris was also questioned as to
whether he had any part in the rob-
bery of the Gardner, Ill. bank on
April 30 in which \$8,000 was stolen.
One of the two robbers had an up-
per front tooth missing. President
Perry of the bank looked over Har-
ris in jail last week and said that
he fitted the description perfectly,
missing tooth and all, except that
Harris speaks with a southern drawl,
while this was not true of the band-
it. It is believed that the accent
might have been assumed. Harris
denies any part in the robbery and
claims that he was in the state pen-
itentiary at that time.

CONTRACTS LET FOR TEXAS TO ILLINOIS PIPE

According to Associated Press dis-
patches today from Springfield, Ill.,
contracts have been signed and work
will commence soon on a pipe line
which will bring natural gas from
Texas to Illinois and Indiana for
distribution to towns served by the
Illinois Light and Power company
and other Insull companies. The pipe
line will be 930 miles long and will
cost upward of \$40,000,000.

The contracts were closed between
the Missouri-Kansas Pipe Line com-
pany and the Illinois Power and
Light company. The line will run
from Pas fields near Ararillo, Texas,
and extend north to Illinois near
Hannibal, Mo. It will then pass
east near Jacksonville, Springfield,
Decatur and Danville on the south
and will terminate near Indianapolis.

The Missouri Power and Light
company, also an Insull concern,
has also entered into the agree-
ment.

The development follows the visit
to Illinois cities early this month
of New York engineers who sur-
veyed Illinois gas consumption with
a view to recommending the pipe
line.

William T. Crowley, local super-
intendent of the Northern Illinois
Public Service company, stated this
afternoon that he understood it
would take about three years to com-
plete. He also stated that he knew
of no way that the pipe line would
affect the source of the local supply.

ASK LENIENCY FOR 3 YOUTHS IN ROBBERY

PLEAD GUILTY AND ASK
COURT FOR RELEASE
ON PROBATION

MOMENCE STICK - UP

Hearing This Afternoon On Mo-
tion Of Frank Davis For
A New Trial

Circuit Judge A. W. DeSelm spent
the entire morning in hearing the
circumstances surrounding the rob-
bery of the Perry Murray grocery
store near Momence. The three
youths who have pled guilty to rob-
bing the store—Henry Freitag, Sam
Auxier and Earl Auxier—have asked
the court to release them on
probation.

All three told a clear and con-
cise story of the robbery which was
substantiated by Murray and other
witnesses. They evicted that they
had not been involved in any
crimes heretofore. Nearly a dozen
character witnesses were introduced
in behalf of Freitag, including Ser-
geant Frederick Solen and Officer
Leo Miller of the Chicago police de-
partment. All attested to the good
character of Freitag.

Freitag and the Auxier brothers
claimed that they committed the
robbery while under the influence
of liquor. They stated that an older
man, Lyle Webster, engineered the
robbery plan and then "ditch-
ed" them. Freitag is 20 years of
age. The three young robbers were
captured at Golden, Colorado, about
a week after the robbery.

Freitag was represented by At-
torney Victor N. Cardoel. The at-
torneys began their pleas to the
court at 1:30 o'clock this afternoon.

The motion of Frank Davis, Che-
banse, convicted of burning a store
in this city in order to collect the
insurance, was heard this after-
noon. Davis is seeking a new trial.
The penalty for the crime upon
which the jury convicted him at
the present term of court is one to
ten years in the state penitentiary.
Davis was represented by Attorney
John A. Mayhew of this city and
C. N. Saum of Watseka.

William Dobbins, colored, accus-
ed of stabbing Clarence Jefferson,
21, in a gambling row at the Da-
vid Moore resort in Momence on
May 11th, was released on \$2,000
bond today. Dobbins had been or-
dered held to the October grand
jury on a charge of manslaughter
by a coroner's jury after Jefferson
died.

Byron Clements was arraigned in
county court today before Judge
Henry F. Ruel. He and Cecil Emery
are accused of stealing an auto-
mobile battery from J. Joyce of
Essex. Clements was released on
\$1,000 bond but Emery was re-
manded to the county jail for fail-
ure to give bond.

CHILDREN TO SHOW PLAY AND EXHIBITS AT BAPTIST CHURCH

A display and demonstration of
unusual interest is to be given at the
First Baptist church, Sunday, May
25 by the Children's World Crusade.
The program and exhibit are a
culmination of several months' study
of missionary subjects.

The play, "How Four Dollars Came
to Go as Missions" was given
last Wednesday evening at the Ba-
ptist School of Missions. It caused
so much favorable comment that it
will be repeated by request Sunday
evening at 7:30. Miss Lillian Frey-
muth, Kankakee High school in-
structor, is directing the cast con-
sisting of Catherine Eilers, Jean
Andrews, Nancy Hightower, and

The Children's World Crusade was
organized in October 1929. Children
between the ages of nine and twelve
comprise the membership. The of-
ficers are: Chas. Mueller, president;
Wayne Jackson, vice president; Wil-
son Davidson, second vice president;
Jensen Christensen, secretary; Eileen
Christensen, treasurer; Murray Tis-
sler, chairman of room committee; Stan-
ley Moore, chairman of membership
committee; Jean Andrews, chairman
literature committee; and William
Spence, chairman work committee.

Study has been made of the Phil-
ippines during the past several
months. Illustrating her project, the
children have deftly modeled a
Philippine community. Miss Margaret
Asbury, art supervisor of the Kan-
kakee schools, expertly directed the
work which will be placed on dis-
play Sunday. The public is cordially
invited to attend the program and
inspect the handwork.

ALLEGED SLICKERS ARRESTED

MEN WHO PASSED STOLEN
CHECKS HERE TAKEN
AT DANVILLE

ON STACK'S LETTERS

Two Stoves Stolen From Local
Warehouse Are Recovered
At Chicago Home

BULLETIN
When Officers Imming and Can-
tlin reached Danville at noon to-
day, they found that the men ar-
rested there were the same as the
two wanted here, but that they
had been taken to Urbana, where
they are wanted on similar charg-
es. Determined that the two men
should be prosecuted for the crime
in Kankakee, Stack dispatched the
officers to Urbana, with orders
to bring the prisoners back with
them.

Two men, believed to be the same
two who passed stolen American
Railway Express company traveler's
checks in Kankakee a week ago
have been arrested in Danville, Ill.,
as a result of letters sent to police
all over the state by John Stack,
Kankakee police chief.

Detective Ed Imming and Wil-
liam Cantlin, special investigator,
accompanied by Gordon Revell,
clerk of the Hotel Kankakee, left
for Danville this morning to ques-
tion the two men. Revell went
along to identify the men.

One of the two alleged "slickers",
an elderly man, was a guest at the
Hotel last Sunday night. The next
morning, he paid for a room with
one of the checks, of \$50 denomi-
nation, and received cash as change.
A little later his companion, a
younger man, went to the Mont-
gomery Ward and company retail
store to purchase an auto tire and
tube, offering another \$50 check as
payment. When the clerk stepped
to the telephone to verify the check,
the man escaped, leaving check, tire
and all. It is believed that the two
fled in a Buick automobile.

Chief Stack immediately sent out
form letters to police all over the
state, giving a description of the
two men. As a result of these let-
ters, the Danville police chief pho-
ned yesterday afternoon that the two
men were under arrest in Danville.

Chief Stack has learned that the
checks were stolen from Martin E.
Canty, an official of the Chicago
public schools. Canty's name was
used on the checks, and also was
used in endorsement.

Officers Imming and Cantlin were
in Chicago yesterday in an effort to
locate stoves stolen from the Belt
Route warehouse recently, and two
stoves were recovered. They were
accompanied by Morgan Jackson to
identify the stoves, which were the
property of the Florence Stove com-
pany. William Coffman, 268 North
May avenue, is charged with the
theft and sale of the stoves.

It was learned by the officers
that Coffman had first sold the
stoves to Mrs. Santino Rosasco,
3934 Albany avenue, Chicago, for
\$26 each. Mrs. Rosasco in turn
sold the stoves to "her good friend,"
Mrs. Jennie Robora, 3934 Albany
avenue. It was at this address that
a washing machine, also stolen from
the warehouse and the property
of the Chicago store, was found.
The officers also found six
100 pound sacks of sugar, also sto-
len from the warehouse. Coffman
is charged with the theft of stoves,
sugar, and washers.

It is probable that the two wo-
men will be prosecuted in Cook
county for receiving stolen property.

HOSPITAL VETS TO HOLD PICNIC, BUT NOT AT INSTITUTION

the present administration of the
Kankakee State hospital, the annual
picnic of the Hospital Employees
Veterans association will be held off
the institution grounds. The outing
will be held some time during the
month of August at a site to be
designated later.

There are about 1500 names on
the list of former Kankakee State
Hospital veterans. A large number
of these return every year for the
picnic.

About 33 members of the veterans'
association here, which numbers
about 45, were the guests of Super-
intendent and Mrs. P. A. Vadebon-
cour at the county poor farm last
evening for the regular monthly

HERSCHER TO HAVE PROGRAM MAY 27TH

The Herscher Home Bureau and
Chamber of Commerce are sponsor-
ing a community program at Her-
scher on Tuesday evening, May 27.
The proceeds from this affair will
be used in improving the village
park in addition to its beauty and to
provide facilities for a fine tourist
camp therein.

The village board has ordered the
graveling of the road leading from
the concrete feeder to Highway 115

REFRIGERATOR SHIPMENTS SET RECORD

Less than two weeks after launching a million dollar newspaper advertising campaign, shipment records of Fridgidaire were broken April 30 when 214 cartons of electric refrigerators left Dayton, Ohio, factories for 46 states and five foreign countries. The previous record, it was stated, was May 31, 1929 when 161 cartons were shipped.

Part of the loading platform where sixty cars can be loaded at one time is shown here, as well as a number of the freight cars that carried the record shipment. The newspaper campaign, which began April 17, was predicated upon a record-breaking first quarter and is the percent increase in showroom visitors.

TREES AND THEIR CARE

Although most of us appreciate the great value of our trees we often forget that they need care. As a result many of them are doomed and starving to death. We know that it takes years for a large shade tree to grow and time is trees around our homes which to us are priceless but still we neglect them to suffer from neglect.

When we consider the large quantity of leaves and seed which are matted by the average tree every year we can better realize that it cannot thrive without a good supply of plant food. The soil around the most of our homes is much poorer than the soil to which the trees cause of a complete plantfood, and a properly fed tree can make an excellent showing even under adverse conditions.

It is easy to feed trees; simply make holes around the trees three feet apart in a circle under the drip of the branches and fill the lower half of the hole with plant food and the upper half with soil. The holes can be made with a crowbar or some other sharp instrument. Not only will this encourage the growth of roots at a lower depth in the soil, making them less subject to injuries by drought, but the deeper roots will eliminate competition between the tree roots and the grass. Often the reason why grass does not grow under trees is because the roots take all of the moisture and food from the soil, leaving none for the grass.

Plantfood is sold by hardware stores, seedmen, florists, nurseries, landscape gardeners and other dealers.

In an actress it's Personality

in a cigarette it's Taste

IT TAKES SOMETHING MORE than good looks to hold the center of the stage—and something more than mere mildness in a cigarette to win the popularity that Chesterfield enjoys.

IT'S THE TASTE, of course—and there's a lot of difference between mildness alone and mildness with taste . . . between ordinary tobaccos and quality tobaccos . . . between ordinary blending and the Chesterfield blend.

TASTE A CHESTERFIELD!—Mildness is there, of course, but much more . . . delicate richness, fragrant aroma, and—"TASTE above everything."

We state it as our honest belief that the tobacco used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

Finishing Attic Rooms Adds Cash Value to Home

Attractively remodeled attic in the home of H. E. Singwald, Baltimore, Md. Here came three insulation board was applied to the under side of the rafters and the ceiling with strips. Such an attic is warm in winter and cool in summer.

Have you ever stopped to consider the value of your attic? The proper type of insulation board will give you the most efficient and economical way of utilizing your attic. The simplest method of applying insulation board is to nail it to the underside of the rafters and the inside of the ceiling. The joints of the insulation board should be covered with wood strips. Insulation board, made from cane three and known as Celotex, has been generally used for this purpose because it not only effectively insulates, but the light natural color makes it an attractive interior finish. This material can also be obtained in lath form where a plaster finish is desired.

Unexcelled as Playroom

As a playroom for the children, the attic is unexcelled. Perhaps a built-in locker for toys and a low table on which they can set up their toy railways will be all that is necessary. In the attic, their romping hours need no longer be on lower floors.

For older children, the attic is an ideal place to read and entertain their friends. Often a study and the attic can be made into a recreation room for parties or for their own amusement. The attic is a large enough for a family billiard table.

Insulation Means Comfort

By insulating the roof against the heat of the summer sun, insulation board makes the attic and the other rooms of the home cool in summer. In winter, it makes the attic comfortable by preventing the escape of furnace heat through the roof. An insulated attic will also cut fuel bills materially, according to tests made by universities and the experience of thousands of home owners. With your attic made comfortable in both summer and winter, the eyes estimate on this type of work.

"Can't When It Rains and Don't Need To When It's Dry"

—Says the Hillbilly from Arkansas

And He Sits and Sits and Lets the Rain Run Through the Old Roof

A GOOD many of us are like the "hillbilly." We procrastinate on household repairs that bring extreme discomfort and added costs in time of storm, and the frequent rains have uncovered this fact.

Your roof is one of the most important parts of the house. It covers and should protect all the rest of the house. It can and should lend architectural beauty to the whole structure. With modern roofing materials available any old home which is a fire hazard can be made reasonably safe against fire, with subsequent reduced insurance premiums.

Youth and Age

Youth is credulous in many matters, but upon one single point youth stays as iron and steel: youth does not ever believe that life serves enough just as it stands. To here that such is just possible the case remains the same. Thereafter optimism develops insidiously and the most of us sink, cackling thinly, into an able senescence. From "The Way of Ehenen" by James Branch Cabell.

Bridegroom's Friend

The "best man" is a relic of the faraway days when marriage was effected by capture. The man could not always do it himself, and when he would take a strong-armed friend to help him. And it is this friend of the eldén days who has now become the "best man" in the modern wedding ceremony.

Simple Blackboard

Blackboards of any size are usually quite expensive, but one can find a way to make one for less than 75 cents. Buy a blackboard, a can of black paint, two coats of white paint, and a can of blackboard that could be rolled up one of the way you wish to use.

Widely Separated

Zenith and nadir are both words, the first signifying the top of the heavens directly above, the latter denoting the bottom point directly beneath.
